"Dandelions" Kelly V (independent)

"This artist's debut album is better than good. Dandelions is an eclectic musical journey that weaves a tapestry of emotions from a singer/songwriter that is definitely going places."

Neways Inc.

"Kelly V and her band have been a wonderful addition to a number of the events we've put on! Her versatility, as well as her energy, have made her the perfect performer to use, as she is able to fit into almost any event where I need music as either an acoustic group, or a full band. It's been a pleasure to work with such a professional group!"

"A compilation of songs written by Kelly over the past five years and arranged and produced by Craig Poole, **Dandelions** displays her diversity of musical style and influences. Though this album would fit neatly into everyone's collection of favorites, listeners should not expect anything cookie cutter. From the raw blues of "Carry Me Home" and the classic country stylings of "Mess You Made," which is said to be Kelly's personal favorite, to the get-up-and-boogie vibe of "Feelin' Fine" and the lyrically fluid title track, every song is a pleasant surprise. With her excessive talent, high energy and big voice, Kelly is living proof that big things come in small packages."

Paradox Entertainment

"The refreshing and diverse album Dandelions spans multiple musical styles with grace. With flavors of Country, Rock, Blues and R & B this album can be enjoyed from start to finish. A must have for the collection, Dandelions delivers stellar arrangement and musicality with vocals that will leave you with goose-bumps."
